## PREFACE

The Fifth Economic Census was launched in Meghalaya during May-June, 2005 in collaboration with the Central Statistical Organisation, Ministry of Statistics & Programme Implementation, Government of India, New Delhi. The objective of Economic Census is to collect information on the official count of all entrepreneurial units located within the geographical boundaries of the country. In this census, information pertaining to location of establishments, description of activity, nature of operation, type of ownership, social group of owner, power/fuel used, total and hired persons (usually working) in the agricultural and non-agricultural economic activities except crop production and plantation were collected.

Unlike the earlier censuses, wherein the term “Enterprise” and “Establishment” were used to denote the “Unit” and “the unit with hired workers” respectively, for presentation of results of Economic Census 2005, we have considered the international terminology and used the term “Establishment” as synonymous to “Enterprise” and “Establishment with hired workers” in place of “Establishment”.

With a view to improving the utility of the data collected and to improve the quality of data generated through the EC-2005, certain new features were introduced e.g. (i) a separate address slip was canvassed to collect data on the establishments employing 10 or more workers for compilation of a Directory of establishments which will be included in the volume - II of the Report, and (ii) Intelligence character Recognition (ICR) Technology has been adopted for the first time for processing of data to avoid possible errors in transcription of the data.

The Report of 5th Economic Census - 2005 is presented in 2 (two) parts, namely, Part- I which has been divided into 5 (five) Chapters in which Chapter-1 is the Introduction, it provides a brief description and historical background, along with the salient features including the new one of the EC – 2005. Chapter-2 gives the Results at a glance, Chapter-3 deals with the analysis of agricultural establishments, Chapter-4 with the analysis of non-agricultural establishments, and Chapter-5 presents a brief Summary Results of the 5th Economic Census – 2005. In part-II detail tables on selected aggregates of the results are presented. In this Part, the coverage of the results comprised district-wise distribution of establishments and employment.

I would like to thank the Director General, C.S.O., Govt. of India who provided technical guidance and full software support through ORGI, Guwahati in getting the filled-in schedules scanned and updated and transforming the updated validated data to Govt. of India for generating the final tables. The overall implementation of the programme was accomplished through the sincere efforts of the Officers and staff engaged in the census.

I hope, this Economic Census Report – 2005 would be useful to the Planners, Policy-makers, Research workers and others who have positive approach in the development activities of the State.

## *5<sup>th</sup> Economic Census - 2005 : Meghalaya*

### **CHAPTER - 1**

# INTRODUCTION

**E**conomic Census is to bridge the data gap in the unorganized sector which plays an important role in capital formation and generation of employment in the economy of the country. The sector accounts for a larger share in the National/State Income.

Economic Census is the official count of the entrepreneurial units located within the geographical boundaries of the country or a region and involved in any economic activities of either agricultural (excluding crop production and plantation) or non-agricultural sectors of the economy. The units should be engaged in production or distribution of goods or services not for the sole purpose of own consumption.

In organized sector the data on registered Factories, Mines, Railways, Civil Aviation, State Transport Undertaking, Major Ports, Banks, Registered Educational Institutions, Hospitals, Insurance Companies, etc., are being collected on regular basis but there exist data gaps in unorganized sector. Data relating to unorganized segment are either scarce or not available at regular intervals, these would have otherwise facilitate for assessment of its share in the National/ State Income and also its impact on the growth of income and employment.

## **ECONOMIC CENSUS : 1977, 1980, 1990 & 1998**

In order to fill the data gaps in unorganized sectors particularly non-agricultural economy, the Central Statistical Organisation (CSO), Government of India has conducted four Economic Censuses, with the first census in 1977 and the fourth in 1998. The Economic Census is sponsored by the Central Statistical Organisation, Govt. of India under Central Sector Scheme and implemented through the States' Directorate of Economics and Statistics in the country. The census and survey results have served to provide basic entrepreneurial data for the purpose of planning, development, administration and for improving the estimation of national income and related aggregates.

### **FIRST ECONOMIC CENSUS (1977)**

The first Economic Census was conducted in 1977. In this census the scope and coverage were limited to non-agricultural sectors and establishments only, employing hired worker on a fairly regular basis. Village level inquiry for the villagers of below 5,000 population in the rural areas was also included in this first economic census.

### **SECOND ECONOMIC CENSUS (1980)**

The Second Economic Census, 1980 was conducted along with the house-listing operation of 1981 census operation. In 1980 economic census, Own Account Enterprises were covered for

## *5<sup>th</sup> Economic Census - 2005 : Meghalaya*

the first time on a census based. In this census, enterprises engaged in economic activity in the unorganized non-agricultural and agricultural sectors (excluding those engaged in crop production and plantation) were covered.

### THIRD ECONOMIC CENSUS (1990)

In the Third Economic Census 1990, a complete enumeration of entrepreneurial activities in the unorganized non-agricultural sectors and agricultural sectors (excluding those engaged in crop production and plantation) in rural and urban areas of the country and the State was carried out. The Third Economic Census sponsored by the Central Statistical Organisation was carried out in collaboration with all the States' Directorate of Economics and Statistics and this census was synchronized with the house-listing operations of the population census 1991 for operational convenience and cost effectiveness.

### FOURTH ECONOMIC CENSUS (1998)

The Fourth Economic Census, 1998 is an independent one organized by Central Statistical Organisation in collaboration with the State Economics and Statistics Directorates/ Bureaus as well as the Union Territories. The previous Economic censuses, 1980 and 1990 were dovetailed by population census along with their house-listing operations. In the Fourth Economic Census, complete house-to-house inquiry for canvassing the enterprise lists was carried out in the urban and rural areas irrespective of the population structure.

In the Urban areas, the Urban Frame Blocks of the National Sample Survey Organisation are used to be as a primary geographical entity where complete house-to-house inquiry for canvassing the enterprise lists were carried out. In the rural areas, complete house-to-house inquiry was taken up for canvassing enterprise lists in which census village is taken as the primary unit.

### NEED FOR REPEAT CENSUS

In view of the rapid changes in the structure of unorganized segments of non-agricultural sector and with a view to meeting the demand of various user departments for the data on unorganized sectors of the economy and also considering the nature of large number of small units which are subjected to high rate of mobility, mortality of the small units and births of new units, it is necessary to update the frame from time to time. Hence, the Fifth Economic Census sponsored by Central Statistical Organisation, was carried out in collaboration with all the State Directorates of Economics & Statistics.

## *5<sup>th</sup> Economic Census - 2005 : Meghalaya*

### FIFTH ECONOMIC CENSUS (2005)

With the initiative of the Central Statistical Organisation, Govt. of India, Fifth Economic Census was conducted in 2005. Through this Economic Census, the Directorate of Economics & Statistics as an implementing agency in the State undertakes all responsibilities for conducting the field work and preparing the report concerning to their respective States.

### SCOPE AND COVERAGE

The Fifth Economic Census was conducted in all the States/Union Territories. All economic activities (agricultural and non-agricultural) except those involved in crop production and plantation are covered in this census. The Fifth Economic Census was conducted both in rural and urban areas of the State. In urban areas, the urban frame blocks of the National Sample Survey Organisation are used as primary geographical entity, while in the rural areas, the census villages are taken as the primary units.

### FIELD OPERATION

The field work of 5th Economic Census was completed in the month of June 2005. The information during the census were collected through 3 (three) schedules namely (i) House List (HL), (ii) Establishment Schedule (ES) and (iii) Address Slip. Separate schedules were used for urban and rural areas. The fourth schedule, namely, the Establishment Abstract (EA) was filled in from the entries contained in the Establishment Schedule (ES)

For the smooth conduct of the Economic Census in the State, Steering Committee at the State and District level had been set up. The basic objective of setting up the Steering Committee is to get the logistic support for all the concern departments for the conduct of the field work of the 5<sup>th</sup> Economic Census. At the State level, the Steering Committee was chaired by the Chief Secretary to the Govt. of Meghalaya and at the District level, the Deputy Commissioners have been made as the Chairman of the District Steering Committee of their respective Districts consisting of the following members :-

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

Intensive and extensive trainings were organized throughout the State for ensuring good quality of data collection in canvassing the schedules of house listing as well as enterprise lists of the Economic Census programme. In some areas, trainings were organized for two times for the concepts and definitions as desired by the identified Enumerators and Supervisors.

For the field work, each enumerator has to visit the census village/UFS Block in rural/urban as the case may be. He was entrusted with canvassing and filling up the House List Schedule and identifying Establishments and filling the details in the Enterprise List Schedule. After obtaining the necessary information, the enumerator has to complete the Enterprise List Abstract. For Fifth Economic Census, for the first time the enumerator has to collect certain information on the Address of the Establishment having 10 or more workers (hired or non-hired) through the Address Slip.

For carrying out the enumeration works and supervision, educated and unemployed youths from the list sent by Employment Exchanges also teachers were engaged as well as the staff from Directorate of Economics & Statistics and from the office of the District Statistical Officers. The Officers both from the Directorate and District Offices and also the extension Officers attached to the Community & Rural Development Blocks were the Charge Officers and are responsible and accountable for the proper/smooth conduct of the field works in the respective areas within their jurisdiction. The field work for Fifth Economic Census was conducted smoothly during the month of April – June, 2005. Altogether, about 1490 Enumerators, 441 Supervisors, 61 Charge Officers were being deployed to facilitate the smooth conduct of the field work of Economic Census in the State.

### SALIENT FEATURES OF THE FIFTH ECONOMIC CENSUS

ICR (Intelligent Character Recognition) technology instead of manual tabulation was adopted for processing of Fifth Economic Census data. To facilitate use of this technology, strict instructions were given to the enumerators not to fold the schedules and to use only black inked ball point pen for filling up of blank schedules and totally avoid overwriting.

For the first time, the ICR technology has been adopted for scanning and processing of the Fifth Economic Census data in co-ordination with the RGI, Guwahati. Final generated tables of the enterprise schedules were received from Computer Centre, Ministry of Statistics & Programme Implementation, Govt. of India, New Delhi from which the final report is based.

### CONCEPTS AND DEFINITIONS

In order to identify the respondents, activities and concerned enterprises under the purview of Economic Census, important concepts and definitions are given below :-

**Building** :- A building is generally a single structure available on the ground. Usual structure will have four walls and a roof. But in some areas, the very natural construction of houses is such

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

that there may not be any wall. For example, a conical roof almost touches the ground and an entrance is also provided and there will not be any wall as such. Such structures should be treated as buildings.

**Census House** :- In census, a house is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc. used or recognized as a separate unit. It may be occupied or vacant. It may be used for residential or non-residential purposes or for both. In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, passage, staircase or a common room, as it happens invariably, the entire hostel/hotel building should be treated as one census house.

**Household** :- A household is a group of persons who usually live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mixed of both such as boarding houses, messes, hotels, jails, etc. they are known as "*Institutional Household*". If a group of persons who are unrelated to each other live in a census house but do not have their meals from a common kitchen, they do not constitute "*an institutional household*".

**Unit** :- A unit located in a house is defined as a group of non-household persons engaged in some economic activity which may be a workshop, manufacturing plant, a shop, an office, a school, hospital, places of worship, etc.

**Premises** :- Premises are part of the census house occupied by a unit/household. If the activity of the enterprise carried out by a unit/household extends beyond the boundaries of a single house to a group of contiguous houses and in rare cases, a group of houses is regarded as a single premise.

**Enterprise/Establishment** :- An Enterprise/Establishment is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. The workers in an enterprise/establishment may consist of the household or hired workers or both. The activity of the enterprise/establishment may be carried out at one or more than one distinct location, or the activity may also be carried out only for a part of the year but on a fairly regular basis i.e. it is in operation for the major part of the year. An enterprise/establishment may be owned or operated by a single household or by several households jointly (on a partnership basis) or by an institutional body or by Government. Enterprise/establishment can be explained by the following definitions :-

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

- (i) *Agricultural enterprise/establishment* :- It is defined as one engaged in livestock production, agricultural services, hunting, trapping and game propagation, forestry and logging and fishing.
- (ii) *Non-agricultural enterprise/establishment* :- Enterprise/establishment engaged in all other activities will be termed as non-agricultural enterprise/establishment.
- (iii) *Own Account Enterprise/Establishment* :- An enterprise/establishment run by household members only without employing any hired worker.
- (iv) *Establishments with hired worker* :- In this case, if number of employees were six or more, then it is a directory establishment, and if the number of employees is less than six, then it is a non-directory establishment.
- (v) *Establishments without premises* :- All establishments that carry on their activities in the open or outside any census building/house, such as roadside vending, hawking, etc. are generally treated as establishments without premises.

*Enterprises/Establishments with Power/Fuel* :- Power/fuel used in carrying out the entrepreneurial activity, without which an economic activity of an enterprise/establishment cannot be carried out, are considered as power/fuel used by the enterprise. The different sources of power/fuel are electricity, coal, soft coke, petrol, diesel, gas, firewood, bio-gas, animal power and others.

*National Industrial Classification (NIC) Code* :- The description of activity of the enterprise/establishment is one of the important items of information to be carefully recorded. The description should be adequately elaborated to enable proper classification and coding of the entrepreneurial activity during scrutiny and coding stages, the 4-digit codes are given as per NIC-2004 book supplied.

*Persons Usually Working* :- This denotes the total number of persons usually working daily in the establishments including members of the household and other hired workers engaged in the activity.

*Non-Hired Workers* :- The total number of persons usually working non-hired (or unpaid) daily in the establishments.

*Hired Workers* :- Hired persons usually working means the daily average number of hired employees who are normally working in the establishments on regular basis.

*Address Slip* :- An Address Slip is a new schedule introduced for the Fifth Economic Census. This has to be filled up when the total number of workers (unpaid and hired) in an establishment is 10 or more.

### PROVISIONAL RESULT

Provisional result is based on the Quick Manual Tabulation of data contained in the Enterprise List Abstract. The State Directorate of Economics and Statistics has published the Provisional Report during the year 2006.

### FORMAT OF THE REPORT :

The report on Fifth Economic Census, 2005 presents the main features of the census results and the detailed tables along with analysis given in descriptive form at State/District level with separate results for the urban and rural areas. The report is presented in 2 (two) parts, namely, Part-I and Part-II. Part-I consists of five chapters including Introduction of the Report. Part-II is a detailed presentation of the results in tables.

The format of Part-I of the Report contains five chapters, the details of which are given below in brief :-

### CHAPTER – 1

This chapter deals with introductory reference to the aim and objectives of the Economic Census Programmes. It also refers to the attempts made in the previous Economic Census conducted in the years 1977, 1980, 1990 and 1998 to fill the data gap in the unorganized segments of non-agricultural sector. It also gives approach adopted for conducting Economic Census 2005, schedules/forms for collecting data, concepts and definitions used, field operations for supervision and enumeration, administrative plans and arrangements, training programmes, release of provisional results based on quick manual tabulation and the final work of preparation for the actual report.

### CHAPTER – 2

This chapter gives the broad results of the Fifth Economic Census 2005 on number of establishments and total persons employed in agricultural and non-agricultural establishments both in urban and rural areas, major activity-wise distribution of non-agricultural establishments, selected characteristics of establishments, District-wise distribution of establishments and employment, and a comparative study of establishments of all the censuses conducted in 1980, 1990, 1998 and 2005.

## *5<sup>th</sup> Economic Census - 2005 : Meghalaya*

### CHAPTER – 3

This chapter deals with the results of Fifth Economic Census 2005 pertaining to number and total employment in agricultural establishments both in own-account establishments and in establishments with hired workers. It also covers information on selected characteristics of establishments, ownership, social group of owner, size-class of total employment in the State.

### CHAPTER – 4

In this chapter, the results deal with non-agricultural establishments female employed in OAEs and establishments with hired workers and also District-wise number of establishments, total persons working both in urban and rural. It also shows the number of hired workers in relation to total persons both at State level and District level and it also shows the size-class of employment for urban and rural areas.

### CHAPTER – 5

This chapter gives the summary results and the salient features of chapters of Introduction, Agricultural Establishments, Non-Agricultural Establishments and also highlights the economic activities in the State.

## CHAPTER – 2

# RESULTS AT A GLANCE

### 2.1 All Establishments

2.1.1 As per the 2005 Economic Census, there were 83207 establishments in Meghalaya, engaged in different economic activities other than crop production and plantation. Number of establishments increased from 56497 in 1998 to 83207 in 2005 i.e. by 47.28% during the period. Among these establishments 79835 (95.95%) were engaged in non-agricultural activities while the rest 3372 (4.05%) in agricultural activities other than crop production and plantation. Of the total number of establishments 55122, (66.25%) were running establishments in rural areas and the remaining 28085 (33.75%) were located in urban areas. The detailed picture with regard to the number of establishments with urban and rural break-up is given in Table 2.1 below.

- 2.3.2 Among all major activity groups '*Retail Trade*' has the highest percentage share of establishments both in urban with 50.93% as well as in rural areas with 38.05%.
- 2.3.3 Of the total own account non-agricultural establishments numbering 34887, 36.60% in urban areas while 63.40% operated in rural areas. '*Retail Trade*' has dominated all other groups in own account establishments both in urban and rural areas.
- 2.3.4 Amongst establishments with hired workers also, '*Retail Trade*' accounted for the highest share of 25.39% followed by '*Education*' with 17.79%, '*Community and Social Personal Services*' with 13.17% and '*Restaurants & Hotels*' with 11.38%. While in urban areas, activity groups '*Retail Trade*' again dominated other groups with a percentage of 35.66%, in rural areas it was '*education*' which accounted for highest percentage of establishments with hired worker with 24.17%, '*Retail Trade*' came second with 20.30%.
- 2.3.5 It is also observed that the number of OAEs, under '*Retail Trade*' activity in the rural is higher to that in urban, with a total number of 13753 and 8775 respectively. In case of establishments, with hired workers the group constituted almost equal share in both urban (5308) and rural (6104) areas.

- 2.4 Employment in Non-Agricultural Establishments by major activity groups.
  - 2.4.1 The distribution of employment in non-agricultural establishments by major activity groups and by type of establishments is presented in Table 2.4 with urban-rural break-up. From the point of view of employment, the maximum number of workers were found to be engaged in '*Retail Trade*' (54385) followed by '*Public Administration, Defence*' (42021), and '*Education*' (33962). These three activities together accounted for 55.49% of the total employment in non-agricultural sector. '*Restaurants & Hotels*' and '*Manufacturing*' employed 22024 and 21929 persons respectively.

2.4.2 In the case of own account non-agricultural establishments 'Retail Trade' netted the maximum employment accounting 62.12% followed by 'Restaurants & Hotels' with 11.84%. The trend was almost similar in urban as well as in rural areas. However, in case of establishments, with hired workers it was the 'Public Administration', 'Defence' group which took the lead in employing 21.87% workers followed by 'Education' with 17.56% and 'Retail Trade' with 14.45%

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

2.4.3 Of the total number of persons usually working in non-agricultural establishments, 42868 (18.25%) worked in own-account establishments and 192052 (81.75%) in establishments with hired workers. The number of hired workers in rural and urban areas was 86891 and 77741 respectively.

2.5 Establishments and Employment therein by size class of employment.

2.5.1 The location-wise distribution of all establishments and persons working therein by size class of employment is given at Table 2.5

Table 2.5 : Distribution of all Establishments and Persons usually working therein by size-class of employment and by rural-urban location

2.5.2 It is revealed from the above table that establishments employing less than 6 persons accounted for 92.50% of total establishments. About 4.93% of total establishments fall within the size class of employment of 6 – 9 persons and 2.57% in the size class of 10 or more workers.

2.5.3 Location-wise proportion of establishments belonging to employment size class of less than 6 workers is very much similar to that of all establishments. In urban areas it was 89.38% while in rural areas it was 94.10%. In urban areas, the percentages of establishments falling in the employment size class of 6 – 9 and 10 or more workers were 5.84% and 4.78% respectively. About 4.46% of total rural establishments were in the employment size-class of 6 – 9 workers whereas only 1.44% were those employing 10 or more workers.

**Distribution of all Establishments and Persons usually working therein by size-class of employment**

2.5.4 It has also been observed that 58.75% of the total persons usually working in establishments were engaged in establishments having less than 6 workers. Establishments with employment size class of 6 – 9 workers and 10 or more workers provided employment to 12.04% and 29.21% of total workers respectively. The proportion of employment among the rural areas for the establishments employed less than 6 workers was 70.22% of the total rural employment, while this proportion among urban establishments was about 44.02% of the total urban employment. Although the number of establishments employing 10 or more workers in urban areas was only 4.78%, the percentage of workers in this size class was very high with 44.80% of total urban employment.

## 2.6 Selected Characteristics of Establishments

2.6.1 The details of selected characteristics of establishments by their type and by location are given in Table 2.6. It is observed that out of total 83207 establishments in the State, 67746 (81.42%) were in private sector (Private Non-profit Institutions and Private Others combined). These establishments were distributed in rural and urban areas in the proportion of 62.13% and 37.87% respectively.

 NPI :- Non-profit Institutions

2.6.2 About 55.93% of the total establishments were owned by Scheduled Tribes, while 4.87% belonged to Scheduled Castes and Other Backward Classes owned 3.84%. Establishments owned by Scheduled Tribes were 56.43% in urban areas and 55.67% in rural areas. Own account establishments under Scheduled Tribe groups in both urban and rural areas were higher to that of the number of establishments with hired worker.

2.6.3 It is observed that only 3232 (3.88%) establishments operated seasonally. Out of this 2454 (75.93%) were in rural areas and the remaining in urban areas. About 53.22% of the seasonally operated establishments were own account establishments.

**Characteristics of Establishments by Location and Social Group of Owner**

2.6.4 A total of 14525 establishments (17.46%) of the total establishments operated without premises. The distribution of these establishments in rural and urban areas were 70.18% and 29.82% respectively. Of the establishments operating without specific place of operation, number of own account establishments in both urban and rural areas were higher than the establishments with hired worker.

2.6.5 Table 2.6 again reveals that the total number of establishments operated without power/fuel was 54129 (65.05% of the total establishments), of which 64.83% were in rural areas. Of these, 28801 (53.21%) were own account establishments and 25328 (46.79%) were establishments with hired worker.

## 2.7 District Level Analysis.

2.7.1 District-wise analysis of the total number of establishments reveals that East Khasi Hills District accounted the highest number of establishments with 34.03% of the total number of establishments in the State, followed by West Garo Hills with 22.07%, Jaintia Hills with 12.56% and West Khasi Hills with 11.39%. The district-wise percentage share of Ri-Bhoi, East Garo Hills and South Garo Hills were 8.12%, 6.69% and 5.14% respectively.

**Table 2.7 : District-wise Number of Establishments and Persons Usually Working**

Meghalaya	28085	55122	83207	106097	136245	242342	2.91

2.7.2 As regards employment, again it is observed that East Khasi Hills was the highest employment-providing District, employing 95272 persons or 39.31% of the total employment in the State. West Garo Hills, Jaintia Hills and West Khasi Hills employed 47236 persons (19.49%), 28853 persons (11.91%) and 23963 persons (9.89%) respectively. South Garo Hills District had the lowest employment share of 4.41%. As revealed in Table 2.7, it is seen that East Khasi Hills again had the highest average number of workers with 3.36 persons per establishments.

2.7.3 In case of the number of establishments in urban areas of the districts, it is observed that East Khasi Hills has the maximum number of establishments with 17728 constituting about 63.12% of the total representation. Next in the order was West Garo Hills with 4189 (14.92%). The other four remaining districts of the State together constituted only about 21.96% of the total urban establishments.

2.7.4 Similar is the case in respect of number of persons usually working in establishments of urban areas where East Khasi Hills District with 64.81% contributed the highest employment followed by West Garo Hills 16.02%, East Garo Hills 6.56%, Jaintia Hills 6.09%, West Khasi Hills 4.52% and the lowest was accounted by South Garo Hills with 2.00%.

2.7.5 It is observed from Table 2.7 that as far as the number of establishments in the rural areas is concerned, West Garo Hills had the maximum number of establishments (14177) followed by East Khasi Hills (10588) and Jaintia Hills (8648). East Garo Hills had the least number of rural establishments (3246)

2.7.6 Considering the number of persons usually working in rural establishments, it is observed that the same trend prevailed in case of persons employed where West Garo Hills District had provided maximum employment (30244) and the next was East Khasi Hills with 26505 persons. They were followed by Jaintia Hills with 22391, Ri-Bhoi 21111, West Khasi Hills 19172 and the lowest number of workers in rural establishments was in East Garo Hills with 8256 persons.

2.7.7 The distribution of number of establishments by their types i.e. agricultural, non-agricultural, own-account establishments and establishments with hired workers for 7 (seven) districts of the State is given in Table 2.8

**Table 2.8 : District-wise Distribution of Establishments by Type**

Note: OAE :- Own Account Establishments

2.7.8 It is observed from Table 2.8 that of the total number of agricultural establishments (3372), East Khasi Hills and West Garo Hills together accounted for 63.29%. Of the total own account agricultural establishments, West Garo Hills was leading with 37.63% followed by East Khasi Hills with 31.75%. South Garo Hills had the lowest number of agricultural own account establishments of 24. In case of agricultural establishments with hired worker, East Khasi Hills ranked first with 396 (33.64%), next in line came Ri-Bhoi District with 304 and West Garo Hills with 215.

2.7.9 Again in respect of non-agricultural establishments, the same trend is witnessed where East Khasi Hills and West Garo Hills again contributed about 55.80% of the total non-agricultural establishments in the State. South Garo Hills registered the lowest number of non-agricultural establishments. Own account non-agricultural establishments with a total number of 13323 or 38.19% in East Khasi Hills was also the highest followed by West

Garo Hills 7452 (21.36%), West Khasi Hills 4075 (11.68%). The other 4 (four) remaining districts together constituted 28.77%. In case of non-agricultural establishments with hired workers also, the same picture was observed where East Khasi Hills District was the leading district having the maximum number (13900) and South Garo Hills the lowest number (2667) of non-agricultural establishments with hired workers. It is also revealed from Table 2.8 that East Khasi Hills District had almost equal number of non-agricultural own account establishments and establishments with hired workers.

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

2.7.10 Table No. 2.9 above reveals that the average number of establishments per 1000 population was 32.32 in the State where East Khasi Hills with average number of 39.58 was the highest while East Garo Hills District recorded the lowest average number of 19.87 establishments per 1000 population. Only 2 (two) districts of the State viz. East Khasi Hills and South Garo Hills were found where establishments were more than the State average while the other 5 (five) districts namely West Garo Hills, East Garo Hills, West Khasi Hills, Ri-Bhoi and Jaintia Hills accounted below the State average.

2.7.11 The concentration of establishments per 10sq.kms of area as observed from Table 2.9 was highest in East Khasi Hills with 103.04 followed by West Garo Hills with 49.95. In the other five districts of the State, the concentration of establishments per 10sq.kms of area was comparatively low, while it was 37.10 for the State as a whole.

### 2.8 Comparison of Results of Economic Census 1980, 1990, 1998 and 2005

2.8.1 In the First Economic Census (1977), only establishments with hired worker were covered, while in each of the Second (1980), Third (1990), Fourth (1998) and Fifth (2005) Economic Census both own-account establishments and establishments with hired worker were covered. Hence the comparison of Economic Censuses results restricted to Second (1980), Third (1990), Fourth (1998) and Fifth (2005) Economic Censuses of this kind.

## 5<sup>th</sup> Economic Census - 2005 : Meghalaya

- 2.8.2 It is seen from Table 2.10 that according to Second Economic Census (1980) there were 32370 establishments in the State which increased to 49971 in the Third Economic Census (1990), 56497 in the Fourth Economic Census (1998), and further increased to 83207 in Fifth Economic Census (2005), registering the simple annual growth rate of establishments to the tune of 5.44% during 1980-90, 1.63% during 1990-98 and 6.75% during 1998-2005.
- 2.8.3 The urban-rural break-up of the establishments indicates that the establishments in urban areas, the annual growth rate was 5.43% during 1980-90, decreased to 1.65% during 1990-98 and again rose to 5.63% during 1998-2005, while rural establishments had grown annually during 1980-90 at the rate of 5.44%, 1.62% during 1990-98 which sharply rose to 7.38% during 1998-2005,
- 2.8.4 So far as the growth of employment during the time span of Second and Third Economic Censuses is concerned, the employment increased at an annual growth rate of 5.66%, while during 1990-98 it was only 1.06% and again rose to 4.48% in a period between 1998-2005. The study of both urban and rural employment growth rate reveals that the growth rate was higher during 1980-90 than that of 1990-98. In the Fifth Economic Census 2005, rural employment increased at the rate of 5.72% annually while the employment rate was less in urban areas with 3.10% annually.

### Establishments by their Location

### Agricultural and Non-Agricultural Establishments by their Location

- 2.8.5 The information provided in the Table 2.11 indicates that agricultural establishments in the State declined from 2513 in 1980 to 2262 in 1990, 2088 in 1998 and again rose to 3372 in the Fifth Economic Census 2005. The non-agricultural establishments however increased by 59.79% during 1980-90, 14.04% during 1990-98 and 46.73% during 1998-2005.
- 2.8.6 Location-wise break-up of agricultural establishments shows that rural agricultural establishments increased at an annual growth rate of 9.80% from the Fourth(1998) to the Fifth(2005) Economic Censuses while the growth rate was comparatively smaller in urban areas with 3.65% annually.

- 2.8.7 Table 2.12 reveals that own-account establishments were 14530 in 1980, increased to 22774 in 1990, 24104 in 1998 and 37082 in 2005, registering an annual growth rate of 5.67%, 0.73% and 7.69% during 1980-90, 1990-1998, 1998-2005 respectively. The growth rate of OAE's in rural areas depicts a quite different picture during 1998-2005 compared to the period between 1990-98.
- 2.8.8 The results further reveal that establishments with hired worker on a fairly regular basis show an increase of 9357 number during 1980-90, 5196 during 1990-98 and a big increase of 13733 during 1998-2005. In urban areas, the annual growth rate was 7.80%, 1.35% and 5.41% during 1980-90, 1990-98 and 1998-2005 respectively, while the same was 4.09%, 2.98% and 6.39% in rural areas.

2.8.9 The growth of non-perennial own-account establishments and establishments with hired worker from the Fourth to the Fifth Economic Census were 62.42% and 66.52% respectively as revealed from Table 2.13. In case of own-account non-perennial establishments the rate of growth shows an increasing trend from the Third to the Fourth Economic Censuses, as well as from the Fourth to the Fifth Economic Censuses in terms of percentage growth, while in respect of establishments with hired worker, non perennial establishments, the percentage growth rate was 104.50% during 1990-98 which declined to the growth rate of 66.52% in 1998-2005.

2.8.10 The own-account establishments operating without premises grew at the rate of 45.79% during 1998-2005 as compared to the growth rate of 13.47% between 1990-98. A sharp increase is also indicated in the case of establishments with hired workers without premises which showed a negative growth of -28.48% during 1990-98 and rose sharply in 2005 at the rate of 130.95%

2.8.11 Looking at Table 2.13, in respect of establishments operating without power or fuel, the growth of own-account establishments was 32.88% during 1998-2005 compared to the growth of 12.28% during 1990-98. Establishments with hired worker operating without

2.8.12 The table further reveals that establishments owned by Scheduled Castes show a declining trend in terms of percentage growth during the period 1998-2005 both in case of own-account establishments and establishments with hired workers. In case of establishments owned by Scheduled Tribes, a reverse trend is observed where own-account establishments showed a growth of 66.09% between Fourth and Fifth Economic Census as compared to only 6.71% during 1990-98 and establishments with hired workers grew at the rate of 45.62% from the Fourth to the Fifth Economic Census.

## CHAPTER – 3

# AGRICULTURAL ESTABLISHMENTS

This chapter deals with the results of Fifth Economic Census pertaining to agricultural establishments. Agricultural establishments are those engaged in farming of animals, agricultural services, forestry, hunting, fishing etc., and exclude those in crop production and plantation.

### 3.1 Establishments and Employment

3.1.1 According to the Fifth Economic Census, there were only 3372 agricultural establishments employing 7422 persons in the State. They accounted for only 4.05% of total establishments and 3.06% of employment in the State total. The number of agricultural establishments and employment therein by type with urban and rural breakup are given in table 3.1

### *5<sup>th</sup> Economic Census - 2005 : Meghalaya*

- 3.1.2 It can be seen that out of 3372 establishments, 2195 establishments constituting 65.09% of total agricultural establishments were own account establishments and the rest were establishments with hired workers.

- 3.1.3 Agricultural establishments engaged 7422 persons, which constituted only 3.06% of the total employment. Of these, 3816 (51.41%) were employed in own account establishments and the remaining 3606 (48.59%) in establishments with hired workers. About 31.65% of the persons working in agricultural establishments were hired labour. On an average 2.20 persons per establishments were working in agricultural establishments. This average was 1.74 persons in own account establishments and 3.06 persons for establishments with hired workers.
- 3.1.4 Rural – Urban breakup of agricultural establishments indicates that the rural areas accounted for 89.98% of the own account establishments and 81.90% of the establishments with hired workers, while the share of urban areas accounted for 10.02% to the own account establishments and 18.10% to the establishments with hired workers.
- 3.1.5 Of the total employment working in the Agricultural Establishments in the State, the rural sector engaged 83.50%. Out of these 55.83% worked in own account establishments and 44.17% in establishments with hired workers. About 28.03% of the persons working in rural agricultural establishments were hired labour. In urban areas proportion of employment in own account establishments and establishments with hired workers were 29.06% and 70.94% respectively. About 49.96% of the persons working in urban agricultural establishments were hired labour.

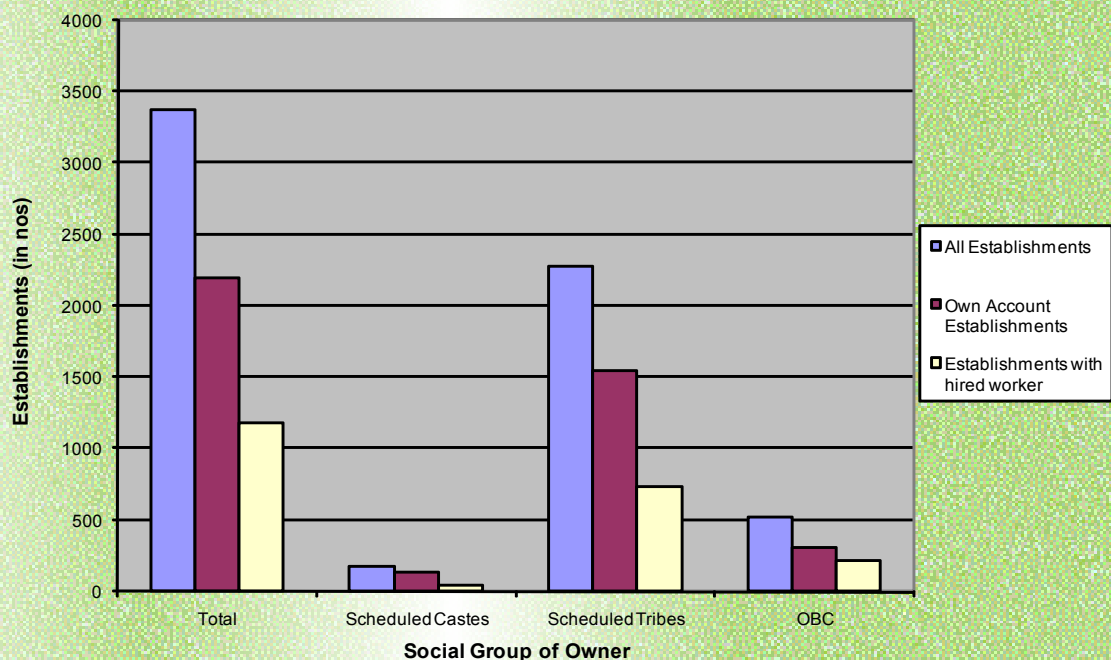

3.1.6 Female employment (1776) constituted 23.93% of total employment in agricultural establishments. The proportion of female employment was found to be more in own account establishments (26.78%) than in establishments with hired workers (20.91%). About 12.95% of the female workers in agricultural establishments were found to be working in urban areas and 87.05% in rural areas. In urban areas, out of the total employment of in agricultural establishments the proportion of female workers was 18.78%. The percentage share of female employment in own account establishments and establishments with hired worker located in urban areas were 27.25% and 15.30% respectively. The percentage share of female employment in own account establishments and establishments with hired workers located in rural areas were 26.73% and 22.69% respectively. The average number of female workers employed per agricultural establishments was about 0.53 in both urban and rural areas.

3.2 Selected Characteristics of Agricultural Establishments.

3.2.1 The location-wise distribution of agricultural establishments by type together with certain selected characteristics like ownership, seasonally, use of power/fuel and without premises are presented in Table 3.2 below:

**Selected Characteristics of Agricultural Establishments by Social Group of Owner**

**Table 3.2 : Selected characteristics of Agricultural Establishments by location**

iii) Establishments with hired workers	1177	44	729	214	97	945	282

- 3.2.2 The proportion of agricultural establishments owned by Scheduled Tribes to total agricultural establishments was 67.53%, while establishments owned by the Scheduled Castes and Other Backward Classes constituted percentages of 5.19% and 15.36% respectively. These proportions were 70.52%, 5.97% and 13.85% respectively in case of own account establishments. In case of establishments with hired workers, the proportions were 61.94%, 3.74% and 18.18% for scheduled tribes, scheduled castes and other backward classes respectively.
- 3.2.3 The results indicate that only 10.38% of the agricultural establishments in the State were seasonal (non-perennial). The proportions of seasonal own account establishments and establishments with hired workers at the State level were 72.29% and 27.71% respectively. In the case of rural areas 11.26% of the agricultural establishments were seasonal and in urban areas the proportion was only 4.39%.
- 3.2.4 About 81.67% of the agricultural establishments operated without any power/fuel. This proportion was 81.39% in rural and 83.60% in urban areas. The share for own account establishments was about 65.69% and establishments with hired workers 34.31%. While the proportion of own account establishments, without using power, in rural areas was as high as 82.53% to total OAE's, it was 81.36% in urban areas and 82.41% at State level. The proportion of establishments with hired workers in rural areas at 79.05% was less than that in urban areas at 85.92% and the State total was 80.29%.

3.2.5 It has been observed that 40.24% of the agricultural establishments operated without any fixed premise. This proportion was higher for own account establishments (48.97%) than that for establishments with hired workers (23.96%). In rural areas the share of establishments operating without premises was 42.77% which was higher than those in urban areas with 23.09%. The proportion of own account establishments in rural areas was 50.84% and was higher than that of the corresponding percentage of 32.27% in urban areas. Similarly, the proportion of establishments with hired worker without premises in rural areas with 26.24% was higher than that of 13.61% in urban areas.

### 3.3 Type of Ownership

3.3.1 The distribution of agricultural establishments by their type of ownership and by location together with employment therein is given in Table 3.3.

**Table 3.3 : Agricultural Establishments and Employment therein by type of ownership with rural and urban location**

3.3.2 It has been observed that bulk (98.58%) of agricultural establishments belonged to the private sector, the rest 0.09% and 1.33% were owned by co-operative and Government sectors respectively. The data of this table also reveal that out of the 3324 private sector establishments, 2907 (87.45%) were in rural areas and 417 (12.55%) in urban areas.

3.3.3 AGRICULTURAL establishments under private sector employed 7102 persons or 95.69% of total employment in agricultural establishments. The share of employment in rural private sector agricultural establishments was 97.24% while in urban areas the share was comparatively smaller with 87.84%. The share of employment by Government in urban areas was 12.16% against 2.66% in rural areas and 4.23% in the State as a whole.

**Agricultural Establishments and Employment therein by type of ownership**

3.3.4 It has been observed that the rate of employment per establishments was higher in Government sector which employed 6.98 persons per establishments in the State, in urban and rural areas the rate was 9.31 persons and 5.69 persons respectively.

3.4 Own Account Agricultural Establishments by size-class of Employment.

3.4.1 Table 3.4 below presents the distribution of own account agricultural establishments together with employment therein by size-class of total employment.

**Table 3.4 : Distribution of Own-Account Agricultural Establishments and Employment Therein by Size-Class of Total Employment**

*Note: Figures in brackets are percentages to all class respectively.*

3.4.2 It would be seen from Table 3.4 that in the case of agricultural own account establishments, the establishments in employment in the size-class of 1 – 5 persons accounted for 98.41% of the establishments and 1.59% in the next size-class of 6 – 9 persons. Establishments in the employment size-class of 1 – 5 persons formed 99.55% in urban areas and 98.28% in rural areas of the total own account agricultural establishments in their respective areas.

3.4.3 Employment provided by the different establishments in different size-class also followed a similar pattern. While 93.40% of total employment was absorbed by the establishments in the size-class of 1 – 5 persons, 6.60% were provided by the establishments in the size-class of 6 – 9 persons. The size-class of employment indicated in the Table 3.4 revealed that the number of persons usually working in size-class 1 – 5 in urban was 98.03% of the total workers in the sector and in the rural areas the same size-class of employment provided employment to 92.92% of the total workers.

### 3.5 Distribution of Agricultural Establishments with hired workers by Size-Class of Employment.

3.5.1 Table 3.5 gives the distribution of establishments with hired workers and employment therein according to their broad size groups of employment in urban, rural and combined areas.

- 3.5.2 It is revealed from the said table that the number of establishments with hired workers, each employing up to 5 persons accounted for a major share of about 94.14% of the total agricultural establishments with hired workers. About 4.50% were in employment size-class of 6 – 9 persons and only 0.85% were those employing more than 10 persons but less than 20 persons. The larger agricultural establishments employing more than 20 persons shared only 0.51% of total establishments with hired workers.
- 3.5.3 As regards employment position, it has been observed that largest share (80.03%) of total employment was that of small establishments employing less than 6 persons. Establishments with 6 – 9 persons absorbed 10.01% of employment and larger establishments with more than 10 workers provided employment to nearly 9.96% of the total workforce in the agricultural establishments with hired workers.
- 3.5.4 In urban areas 87.79% of the agricultural establishments were found in the employment size-class of less than 6 persons with corresponding share of 60.07% in urban employment in agricultural establishments with hired workers. In rural areas smaller agricultural establishments employing less than 6 workers, formed 95.54% of the total rural agricultural establishments with hired workers and contributed 86.37% of total rural employment.

3.6.1 District-wise distribution of agricultural establishments by their type and location has been given in Table 3.6. It has revealed that East Khasi Hills has the maximum number of agricultural establishments (1093), constituting 32.41% of all agricultural establishments

in the State. It was followed by West Garo Hills (1041) 30.87%. In rural areas, maximum numbers of agricultural establishments were located in West Garo Hills (995) whereas East Khasi Hills had the maximum number of agricultural establishments (317) in urban areas.

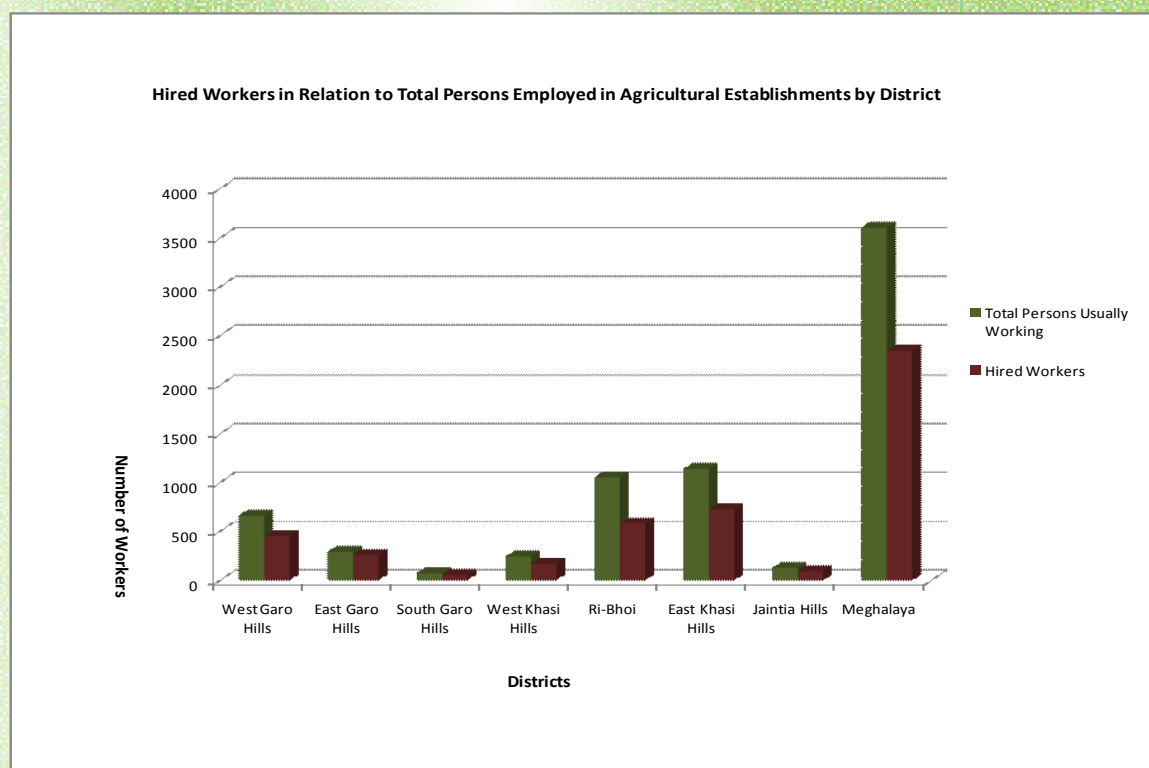

- 3.6.2 The proportion of agricultural OAEs (2195) to that of the total agricultural establishments (3372) was 65.09% and the remaining (1177) 34.91% were agricultural establishments with hired workers. West Garo Hills with 826 OAEs accounted for 37.63% of the total OAEs while South Garo Hills with only 24 OAEs had the smallest number of OAEs. Regarding agricultural establishments with hired workers, East Khasi Hills with 396 numbers occupied the first place followed by Ri-Bhoi with 304 and West Garo Hills with 215.
- 3.6.3 As regards employment also, East Khasi Hills again provided the maximum employment to 2358 persons (31.77%) followed by West Garo Hills with 2073 (27.93%). In rural areas, West Garo Hills witnessed maximum employment to 1897 persons followed by Ri-Bhoi with 1620 persons, whereas in urban areas, East Khasi Hills occupied the first position with 771 workers.
- 3.6.4 Considering the number of persons working in agricultural own account establishments, West Garo Hills again stood first with 1403 persons sharing 36.77% of the total employment in own account establishments. South Garo Hills District, which had the smallest number of OAE's, provided employment to only 28 persons. In the case of agricultural establishments with hired workers, East Khasi Hills which had the highest number of establishments with hired workers also provided employment to 1141 persons, consisting 31.64% of the total employment in agricultural establishments with hired workers.
- 3.6.5 Of the 3606 persons working in agricultural establishments with hired workers, 2349 or 65.14% were hired labourers. Of the total hired labourers, 73.95% were working in rural areas and the rest 26.05% in urban areas. Again, East Khasi Hills employed the maximum number of hired workers of 734 followed by Ri-Bhoi with 589 hired workers. South Garo Hills, being the district with the smallest number of establishments had only 53 hired labourers working in the 25 agricultural establishments with hired workers in the District.

The share of non-agricultural establishments per thousand population was the highest in Trading Activity (Wholesale and Retail Trade) with 13.87 followed by Education with 3.18, Restaurants & Hotels with 3.16 and Community, Social & Personal Services with 3.15. The table also reveals that the share of non-agricultural establishments per thousand population in the State was 31.01. East Khasi Hills had the highest number of 38.05 establishments per thousand population followed by South Garo Hills with 37.80 establishments while

East Garo Hills had the lowest number of 19.16 establishments, Jaintia Hills and West Garo Hills had 30.69 and 30.29 establishments per thousand population respectively.

4.3.9. The District-wise concentration of non-agricultural establishments per 10sq. kms of area is presented in Table 4.5.

4.3.10. The above table depicts the same picture or trend in respect of number of establishments per 10sq. kms of area as the number of establishments per one thousand population (Table4.4) where the Trading Activity (Wholesale and Retail Trade) with 15.92 was the leading activity, followed by Education with 3.65, Restaurants & Hotels with 3.62 and Community, Social & Personal Services with 3.61. The concentration of non-agricultural

establishments per 10 sq. kms of area in the State was 35.59, where the concentration in East Khasi Hills alone was nearly three times (99.06%) that of the State average, West Garo Hills with 47.12 was above the State average while the concentration was the lowest in West Khasi Hills with 17.54.

#### 4.4 Non-Agricultural Own Account Establishments and Employment by Size-class

4.4.1. The location-wise distribution of non-agricultural OAE's and employment therein by size-class of employment is given in the following table.

**Table 4.6 : Distribution of Own Account Non-Agricultural Establishments and persons usually working therein by Size-class of Employment**

*Note:- Figure in brackets are percentage to all classes respectively.*

4.4.2. As revealed from the above table, the location-wise percentage distribution of non-agricultural OAEs and persons usually working among all the size-class of employment appears to be more or less uniform i.e. the establishments employing less than 6 persons accounted for 99.95% in urban areas, 99.79% in rural areas and 99.85% in the State as a whole, out of the total number of OAEs in their respective areas. The distribution further reveals that the same scenario is observed in respect of persons usually working in the non-agricultural OAEs where establishments employing less than 6 persons provided maximum employment to 99.72%, 98.70% and 99.05% out of total employment in OAEs in urban, rural and combined areas of the State respectively.

- 4.5.2. There were 34887 non-agricultural own account establishments in the State which constituted 43.70% of the non-agricultural establishments. Of the 34887 own account establishments, 22119(63.40%) operated in rural and 12768(36.60%) in urban areas of the State. The non-agricultural own account establishments provided employment to 14904 persons and 27964 persons in urban and rural areas respectively. Overall rate of employment in non-agricultural OAEs was 1.2 persons which were more or less uniform in rural and urban areas.
- 4.5.3. The activity-wise distribution of non-agricultural OAEs indicates that 'Retail Trade' activity group accounted for 64.57% of the total OAEs and employed 62.12% (26631) of the total persons usually working in non-agricultural own account establishments.
- 4.5.4. The same scenario had been witnessed in urban as well as in rural areas, where the 'Retail Trade' activity group accounted for 68.73% and 62.18% in urban OAEs and rural OAEs respectively. The urban OAEs under 'Retail Trade' activity employed 68.09% while OAEs in rural areas under this activity group employed 58.94% of the total work force in their respective areas.
- 4.6 Non-Agricultural Establishments with hired workers and Employment by size-class of Employment and by Location.
- 4.6.1. Below is the Table 4.8 on non-agricultural establishments with hired workers showing persons usually working by size-class of employment according to location.

Note:-Figures in brackets are percentage to total.

4.6.2. It has been observed that majority (86.48%) of the non-agricultural establishments with hired workers belonged to employment size-class of 1 – 5 persons, whereas total number of persons employed therein was only 48.66% of total employment. On the other hand, remaining non-agricultural establishments with hired workers belonging to employment group of 6 and above, having only 13.52% in total establishments accounted for 51.34% of the total employment.

4.6.3. Out of the 38869 non-agricultural establishments with hired workers in the employment size-class of 1 – 5 persons, 69.29% operated in rural areas and the rest 30.71% in urban areas. The percentage share of establishments with hired workers gradually reduced with increase in the size-class of employment. The trend was almost similar in rural and urban areas.

#### 4.7 Non-Agricultural Establishments with hired workers by Type of Ownership

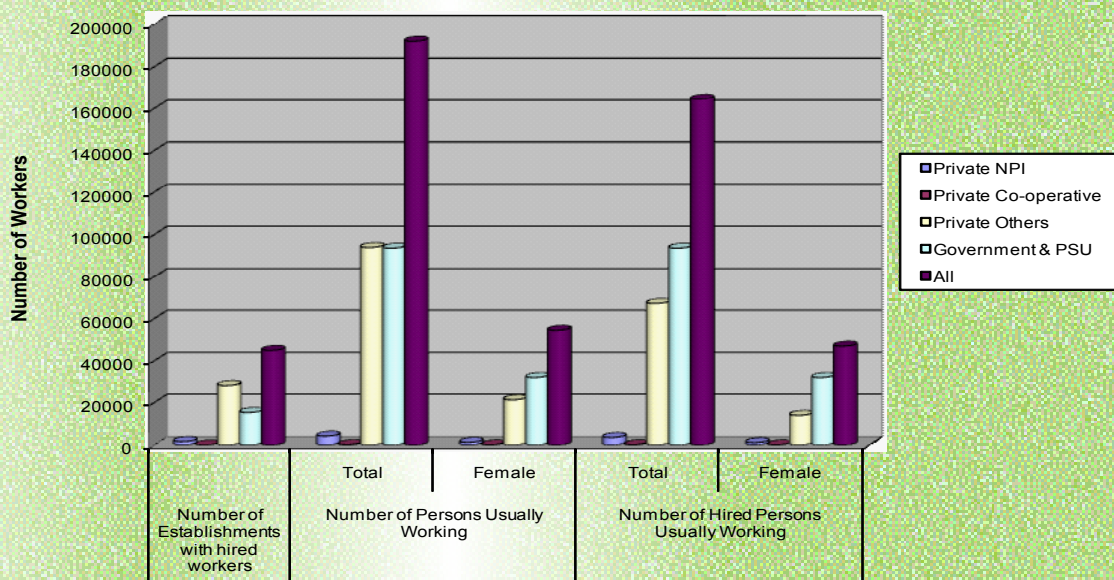

4.7.1. The distribution of non-agricultural establishments with hired workers by type of ownership and employment therein with urban-rural break-up has been given in Table 4.9

**Number of Non-Agricultural Establishments with hired workers and Employment therein by type of Ownership**

4.7.2. It is observed that 62.06% of the non-agricultural establishments with hired workers were owned by 'Private Others', 3.71% were owned by 'Private Non-Profit Institutions', 34.12% by the 'Government and Private Sector Undertakings' and the remaining 0.11% by the 'Co-operative Societies'.

4.7.3. In urban areas 'Private Others' group owned 82.93% non-agricultural establishments with hired workers followed by 'Government and Private Sector Undertakings'(15.96%), 'Private Non-Profit Institutions'(0.94%) and 'Co-operative'(0.17%). In rural areas also, the pattern was similar. 'Private Others' group owned largest number of establishments with hired workers (51.73%), followed by 'Government and Private Sector Undertakings'(43.10%), 'Private Non-Profit Institutions'(5.08%) and 'Co-operatives' (0.09%).

4.7.4. Non-agricultural establishments with hired workers owned by 'Private Others' employed 93938 persons forming 48.91%, closely followed by 'Government and Private Sector Undertakings' with 48.74%. 'Private Non-Profit Institutions' and 'Co-operatives' absorbed 2.22% and 0.13% respectively.

4.7.5. There were 164632 workers in non-agricultural establishments who were on hired basis. 56.86% of the hired employees were absorbed in 'Government-owned Establishments' and 40.81% in establishments owned by 'Private Others'. Establishments owned by 'Private Non-Profit Institutions' and 'Co-operatives' absorbed only 2.20% and 0.13% workers respectively.

4.7.6. There were 54439 female employees forming 28.35% of total employment in non-agricultural establishments with hired workers. About 58.20% of the female workers were employed in 'Government' owned establishments, 39.14% in establishments owned by 'Private Others' and the remaining 2.66% in establishments owned by 'Private Non-Profit Institutions' and 'Co-operatives'.

4.7.7. Female workers (46974) were largely (86.29%) hired workers. Among these, 67.45% were absorbed by 'Government' establishments, 29.77% were employed by establishments owned by 'Private Others', 2.51% in 'Private Non-Profit Institutions' and 0.27% in 'Private Co-operatives'.

#### 4.8 Non-Agricultural Establishments with hired workers by Activity Groups

4.8.1. The location-wise distribution of non-agricultural establishments with hired workers and employment therein by major activity groups is presented in Table 4.10.

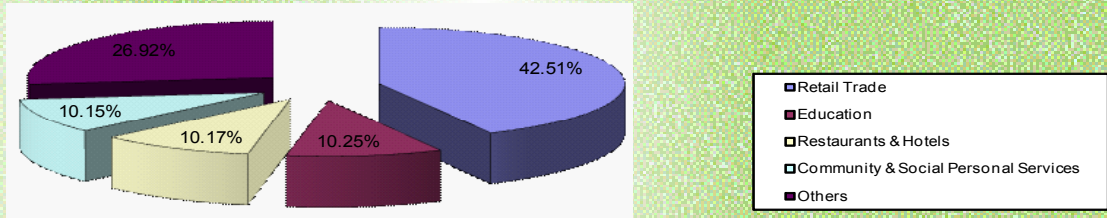

**Table 4.10 : Number of Non-Agricultural Establishments with hired workers and Employment therein by Major Activity Groups and by Location**

4.8.2. As revealed from the table above, out of the 44948 non-agricultural establishments with hired workers, 30064 operated in rural and 14884 in urban areas, sharing 66.89% and 33.11% respectively. The rural establishments with hired workers employed 53.15% of the total workers in non-agricultural establishments with hired workers while urban establishments provided employment to 46.85% workers.

**Percentage Distribution of Major Activity of Non-Agricultural Establishments**

**Percentage Distribution of Employment in Non-Agricultural Establishments**

- 4.8.3. The activity-wise distribution of non-agricultural establishments with hired workers indicates that among all non-agricultural activities in the State, 'wholesale and retail trade' activity (27.47%) was a predominant activity, followed by 'education' with 17.80%, 'community and personal services' with 13.17% and 'restaurants and hotels' with 11.38%. The employment provided in the establishments with hired workers under these four activity groups was around 48.84%.
- 4.8.4. Looking from employment point of view, out of the total number of persons working in non-agricultural establishments with hired workers (192052), the largest percentage of 21.87% (41997) was employed in the 'public administration, defence and social services' activity group, followed by 'education' with 17.56%, 'trading' activity 16.22% and 'manufacturing' with 9.57%.
- 4.8.5. Among the urban non-agricultural establishments with hired workers the predominant activity group was 'retail trade' with 35.66%, followed by 'restaurants & hostels' with 12.15%, 'manufacturing' with 9.50% and 'community and personal services' with 8.36%. Out of 89968 persons employed in the urban non-agricultural establishments with hired workers, 30127(33.49%) were employed by establishments with hired workers in the 'public administration, defence and social services' activity group alone which had establishment only 961 in numbers. Next came workers in 'retail trade' activity group who were 13951 constituting 15.51% and 'education' activity group with 9921(11.03%).
- 4.8.6. It is also observed that of the total 30064 rural non-agricultural establishments with hired workers 7268(24.17%) were under 'education' activity group and provided employment

to 23802 (23.32%) persons, 6104 (20.30%) under 'retail trade' activity with 13803 (13.52%) persons employed and 4675 establishments (15.55%) under 'community and personal services' activity group providing employment to 8245 (8.08%) persons while 'manufacturing' activity group with only 2590 (8.61%) establishments provided employment to 12487 persons (12.23%).

#### 4.9 Hired Workers by Major Activity Groups

4.9.1. Hired workers engaged in non-agricultural establishments with hired workers by major activity groups are presented in Table 4.11
