GRAM SEVAK CIRCLE-WISE

DEMOGRAPHIC PROFILE OF MEGHALAYA - 2016

Directorate of Economics & Statistics
Meghalaya, Shillong

PREPACE

The Handbook on the Gram Sevak circle-wise demographic profile of Meghalaya - 2016 has been compiled with a view to provide better insight on some of the important demographic profiles of the State at the grass root level. For publication of this handbook, the Gram Sevak circle-wise list of villages have been collected from the respective District Statistical Officers who in turn have collected these village list from the respective Block Development Officers falling under the jurisdiction of their respective districts. The hamlets/localities which may have been included in the Gram Sevak circles of the respect Dev. Blocks but which are not notified as census village as per 2011 census have not been included in this Handbook. The censuses of those hamlets/localities are included with the main/nearby notified census villages during the population census 2011. Whereas, all the demographic figures in this handbook are based on the Census 2011 figures.

This Handbook comprises demographic profile for all the 585 Gram Sevak circles falling under all the 39 Development Blocks of the 11 Districts of the State. All the census villages i.e. a total of 6459 villages have been bifurcated for all the 11 Districts of the State as per notification of the State Government as well as the Gram Sevak circle village list maintained at the Block level.

I would like to place a special record for the contribution made by Shri B. G. Momin, R.O. who has taken the initiatives and all out efforts to compile the handbook which is first of its kind.

I sincerely thanks the District Statistical Officers and all concerned BDOs for readily supplying the Gram Sevak circle-wise village list of the Development Blocks falling under their District. Without their support and cooperation, it would not have been possible to bring out this Handbook.

It is expected that this handbook will serve as a handy tool for the policy makers, economic planners, researchers, students etc.

Comments and suggestions from the users of this publication for improving the quality and usefulness will be highly appreciated.
