

PUBLICATION SECTION

Publication Section form one of the most important branches of the Directorate of Economics and Statistics, Meghalaya. Its main function is to collect data and information from various Departments of the State and Central Offices including Autonomous bodies and Semi-Government agencies. The data collected are compiled, processed and disseminated in the form of Statistical Publication pertaining to important Socio-Economic Indicators that helps to identify with the economy of the state. This section acts as a data bank of the Directorate as it always tries to provide all statistical information relating to any sector of the state, requested by Policy Maker, Planners, Research Scholars, Students and people of various works of life.

The most recent publications brought out by the Section are:-

1. Meghalaya Statistical Abstract 2023.
2. Statistical Handbook of Meghalaya 2022.
3. Meghalaya at the Glance 2022.

Besides the above, other Publication viz “**Meghalaya at the Glance 2023**” has been sent to the Government Printing Press for printing “**Gender Statistics 2023**” the newest Publication and first of its kind has reach its final stage of compilation, both the publication are expected to come out in the public domain in due time, “**Statistical Handbook of Meghalaya 2023**” compilation is yet to be completed.

This section is in the process of digitizing the collection and storing of Statistical information from various line departments needed for compilation of various Publications in collaboration with the NIC.
