Preface

The Report on Census of Meghalaya State Government Employees as on 31st March 2024 carried out by the Directorate of Economics & Statistics, Meghalaya, is the sixteenth in the series of census, starting from 1972. Similar to Census 2022, this Census has been extended to employees who are not drawing their salary through the Directorate of Accounts & Treasuries and employees working in the Public Sector Undertakings, Agencies, Banks, Registered Societies etc. of the State Government.

The Directorate of Economics & Statistics in this particular Report on Census of Meghalaya State Government Employees has taken the initiative to publish the data in three parts:

Part A is data on employees who are drawing salary directly through Accounts & Treasuries where the database of the State Government employees in the Directorate of Accounts & Treasuries is taken as the source of reference, while the remaining data which is not available in the database has been collected by the DES from the respective Departments.

Part B is the data on employees employed/salaried under Units (schemes/ payrolls/projects & grant-in-aid) of Line Departments. This data has been collected directly from the respective Line Departments/Offices.

Part C is data on employees employed under Public Sector Undertakings (PSUs), Agencies, Banks, Registered Societies etc. of the State Government which has also been collected from the respective offices.

It may be mentioned that the decrease in the total number/percentage of (Part A) employees drawing salary through the Directorate of Accounts & Treasuries as on 31st March 2024 is because the employees employed/salaried under Units (schemes/payrolls/projects & grant-in-aid) of Line Departments are at present drawing their salary through their respective Departments/Offices and not through the Directorate of Accounts & Treasuries as done in previous years.

I would also like to acknowledge the efforts and dedication of the Officers and Staff of Government Employees Section who were involved with the collection, compilation and presentation of data.

My sincere appreciation is extended to all participating Departments/Offices who have given their full support and cooperation to the census in providing the required data.

Any suggestion for further improvement of the Report is welcome.
